Sir.
Mr. Chever, who was in the Platier Look out Boat, which was ordered as far as the Neck of Patuxent, has this Moment come to Town; he says that yesterday Afternoon as the
Platier was taking in Water at Mr. Carroll's, they saw 3 large Ships with 2 small Vessels
opening to the Mouth of Patuxent, that they endeavoured to get out of the Black Rock
River in the Platier, but the Ships came up so fast, they could not; that Mr. Howard
516. who commanded the Platier, said he had no Doubt that the Ships were English
Men of War & the Small Vessels Tenders. He (Chever) was put on Shore at Col. ~~Col.~~ ^{Col.} ~~Fitz~~ ^{Fitz}
Hughes & rode all Night to bring the Intelligence. He says, a little before Sun down
he saw one of the Ships about Barren Island under an easy Sail. This Intelligence
is very unexpected after our having heard, last Night from unquestionable Authority
that the Enemy had gone out of the Bay; it can't be accounted for but on a Suppo-
sition that the Enemy had turned out only to amuse us. Pray advise us whether
you are likely soon to get the Arms from Elk. We shall write you again soon.

Sir.
Commodore Grason has just come in, he was conveying the Vessel with Arms to
Patowmack. About 9 O'clock this Morning he saw two Ships at anchor near
James's Island, the one larger than the other, one he took for a Frigate the other a 20
gun Ship or a 20 & a Sloop; the smallest lay on the Edge of the Channel ~~between~~ ^{towards} ~~the~~ ^{the} ~~Eastern~~ ^{Eastern}
517. the Eastern, the largest on the Edge of the Channel towards the Western Shore. As
long as he saw them, they continued at Anchor, he saw no Transports, tho' he thinks
no Conclusion can be drawn from thence, that they have none, or any ~~Transports~~ ^{Transports}
left the Chester between Sharps Island & Tilghman's Island and came up in a small
Boat. It would, doubtless, be prudent to send immediately for the Comonaw, in
order to get certain Intelligence by Tomorrow, whether the Enemy have Transport
or not, be attentive to our Signal Guns.
